MALLA REDDY COLLEGE OF ENGINEERING

CSE(AI&ML)

This can range from interviews, product reviews, human interest pieces, and even lists.

Think about what your audience would be interested in and get writing! Again, choose engaging photos and graphics to accompany your words, as these also help catch your audience's eye. When you've decided on your cover story, come up with a list of topics for your feature articles. This can range from interviews, product reviews, human interest pieces, and even lists.

Department of Artificial Intelligence and Machine Learning (AI&ML)

The Department of Artificial Intelligence and Machine Learning (AI&ML) was founded in 2020 with the goal of providing high-quality higher education to as many students as possible and to satisfy the enormous need for highly trained professionals in the industry.

The Department of AI&ML offers a B. Tech program in Computer Science and Engineering (Artificial Intelligence and Machine Learning). The curriculum is created to give students a firm foundation in AI and ML principles and concepts as well as practical experience in handling situations from the real world.

Mr.R.Venkatesh

ASSISTANT
PROFESSOR, CSE (AI
& ML), MRCE

Our visionary Director leads with unwavering dedication, a commitment to excellence, and a passion for shaping the future of education and innovation. With a forward-thinking mindset, he continuously inspires both faculty and students to push the boundaries of knowledge and creativity. His exceptional leadership fosters an environment where academic excellence, research, and holistic development thrive in harmony. By encouraging open communication, collaboration, and continuous learning, he empowers students to strive for greatness and become future-ready professionals. His support serves as a foundation for transformative ideas and impactful initiatives, enabling learners to make meaningful contributions to society and leave a lasting legacy.

PLEXUS

UNITED BY NERVES

Linking Talent, Fueling Growth.

PLEXUS - United by Nerves

PLEXUS meaning "united by nerves" is a dynamic and passionate department group founded by students, for students. Much like the interconnected network of nerves in the human body, PLEXUS brings together individuals from diverse interests and talents under one unified banner. From the precision of our **technical club** to the creativity of our **design team**, the energy of our **sports club**, the storytelling flair of our **social media squad**, and the inclusive spirit of our **non-technical club**, every branch plays a vital role in shaping a vibrant and collaborative student community.

At PLEXUS, we believe that growth thrives in unity and creativity. That's why we regularly organize engaging, exciting, and purposeful events that not only entertain but also empower students to explore their skills, challenge their limits, and connect with like-minded peers. Whether it's a hackathon, a game night, a design sprint, or a social media campaign, each initiative is crafted to be both fun and enriching. As we continue to grow together, PLEXUS remains a hub where passion meets purpose and every student finds a space to shine.
